

Celebrate Earth Day Sunday on April 19th or 26th

Looking for ideas on how to make your Earth Day Sunday celebration reverent and relevant? Look no further. The resources below can aid your congregation as you worship, study, and put your faith into action.

Check out this year's Earth Day Sunday resource, [Celebrating and Caring for God's Creation](#).

Include Prayers, hymns, and liturgy about climate change in your worship service. [Click here](#) for some suggestions

Order a FREE copy of the video God's Creation and Global Warming and watch it in your Adult Sunday School class or with your youth group to help members better understand the impacts of global climate change on God's Creation. [Click here to order your Free Copy](#).

After the service, plant a tree as a sign of your congregation's covenant to care for God's Creation. Use one of the worship resources above to dedicate the tree. Choose a tree that is native to your region.

Carpool or bike to church. Reduce your carbon footprint while getting to know your neighbors. Match up church members who live close to one another and encourage them to carpool or bike to church together. This can be a time of fellowship as well as a way to reduce your energy use. [Click here](#) for step by step instructions.

Encourage your congregation to join the Carbon Reduction Campaign! Find out how to minimize your congregation's contribution to climate change while saving on energy costs. Learn how making simple changes like replacing incandescent light bulbs with compact fluorescent lights and installing occupancy sensors can save energy and see exactly how much carbon your actions are keeping out of the atmosphere [click here](#) to sign up!

The earth is the Lord's and all that is in it, the world, and those who live in it; (Psalm 24:1)
